Read Out Promoters.

Heretofore property owners have signed petitions to have improvement districts created. The paving contractors of the city, interested in certain paving materials, have sent out promoters to secure signatures. These promoters have not always been scrupulous and the city legal department, in its investigation of petitions, found often that signatures were forged, or secured under false representations.

"We think the plan of giving the city council absolute power in this matter is much better than the present system," said Horrihan. "Under the plan proposed for the charter, the council will create the district when there is sufficient evidence that it is needed. Then the people will protest, if they are opposed and if a sufficient number protest the council will drop the matter."

Suit for Auto Run Into Ditch Water Board Leaves Open

James H. McCreary has notified the city commission that he will bring suit for damages to an automobile which he drove into the Twenty-eighth avenue water main ditch, which was open, although conditions surrounding the crossing at Fowler avenue "invited attempts to cross." McCreary says his auto was damaged to the extent of \$50. He ran it into the ditch and "found it almost a bottomless pit." This is one of several notices that damages will be asked on account of the water board's slovenliness in filling the big ditch or carelessness in leaving it open.

Personal Gossip.

A son was born to Dr. and Mrs. A. F. Jones Thursday morning.

Dinner Party.

Mr. and Mrs. Joseph Baldrige entertained Wednesday evening at dinner. The guests were:

Ocellian Club Dancing Party.

Members of the Ocellian club gave an enjoyable dancing party Wednesday evening at Krug park. About 150 were present and the committee in charge included James Flanagan, Frank Drummy and Wallace Drummy.

PAVING PROMOTER HARD HIT

Horrihan Knows How Deals Are Worked and Would End Them.

PLAN BEFORE CHARTER MAKERS

Would Have the Property Owners Given a Chance to Name the Material They Desire and Pay For.

A plan that practically abolishes the paving district promoter is contained in the report of the public improvements committee of the charter convention, of which Dan Horrihan, a former paving promoter and the secretary of the charter commission, is chairman. The committee recommends that all power to create paving and other improvement districts be vested in the city council and that this power shall be exercised unless a majority of the foot frontage property owners sign a protest.

Horrihan has heard the frequent controversies before the city commission over the signatures to petitions for paving districts and this plan, he believes, is the remedy. His report will be submitted at the next meeting of the charter board.

Threatened With Whipping, Newsboy Leaves His Home

Because he was threatened with a whipping if he came home late to supper any more, Herman Holmberg, aged 11 years, son of Mr. and Mrs. H. Holmberg, 508 South Twenty-fourth avenue, ran away from home Tuesday morning and as yet no word as to his whereabouts have been received by the parents. The mother is almost prostrated with grief and anxiety.

A short time ago he was reprimanded by his parents for coming late to supper and was forbidden to sell papers anywhere in hopes that he would be more punctual. The boy, taking it to heart, ran away and it was not until two days later that he was found at Bellevue, where he had gone to secure employment. Herman was brought back, but upon a promise to be home at 6:30 each night he was once again allowed to sell papers. Monday evening he was late; his parents forbade him to work and threatened to chastise him if he did not come home immediately after school.

Tuesday morning he started for school and has not been heard from since.

Widow Hemsteger Settles Her Claim

The widow of Dr. J. F. Hemsteger, Chicago physician, alleged to have been suffocated by carbon monoxide generated by the doctor's automobile, has settled her suit to recover \$5,000 for his death from the Physicians' Casualty association of this city. The company resisted the action in district court on the ground that the doctor's death was due to cerebral hemorrhage. By stipulation the case has been dismissed at plaintiff's cost. The amount of the settlement, it was said, was large enough to constitute an admission by the company that the Chicago physician died of asphyxiation.

According to evidence at the inquest in Chicago, Dr. Hemsteger was a rich practicing physician in Chicago, about 50 years of age and in good health. He owned an automobile and kept it in a brick barn in January, 1911, finding that carbon from burned oil had clogged the cylinder of his machine he coated the inner surfaces with kerosene and wood alcohol and let them stand over night. The following morning he went to the barn, closed the door, leaving the windows shut, and started the engine to burn out the cylinder. Gas and smoke discharged through the exhaust pipe, according to expert testimony, contained a large quantity of carbon monoxide.

A few minutes later the doctor staggered from the barn, fell, arose again and made his way with difficulty to his home, where he immediately sank on a couch. He died the following morning while sitting in an easy chair.

ALLMAN BROS. SHOWS HAVE BIG CROWD AT OPENING

The formal opening of the Allman Bros. shows, playing for the benefit of the city commission, was opened Wednesday and there was a fair crowd of first-nighters, considering that the weather was quite cold and disagreeable for outdoor amusement. Not only was there a large number of merry makers assembled, but they all seemed to have come out for a good time, and from all appearances made good. Adults, as well as children, entered into the merry making and paraded up and down the street of fun and frolic. With favorable weather the remainder of the week this promises to be a successful celebration. The throng stayed until a late hour and there was enough to keep everybody entertained for the entire evening, not only with the performances inside the tents, but also on the outside some of the outside demonstrations being really a show in themselves. The people that visited the different attractions last night seem pleased with the productions, and with suitable weather tonight a large throng of merry makers is expected.

CROXONE SOON RELIEVES ALL KIDNEY AND BLADDER TROUBLES

Chronic Sufferers Find Relief After Few Doses are Taken

If you are bothered with backache—or rheumatism, have disagreeable, annoying bladder or urinary disorders to contend with—or suffer with any other of the many miseries that come from weak kidneys, here is a guaranteed remedy you can depend upon, no matter what else may have failed to cure you.

It is a positive fact that the new discovery, Croxone, promptly overcomes such diseases. It is the most wonderful remedy ever made for ridding the system of uric acid.

It soaks right in and cleans out the stopped up kidneys and makes them filter and sift out all the poisonous waste matter from the blood. It neutralizes and dissolves the uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the delicate linings of the bladder.

More than a few doses of Croxone are seldom required to relieve even the obstinate, long standing cases.

You will find Croxone entirely different from all other remedies. It is so prepared that it is practically impossible to take it into the human system without results. An original package costs but a trifle. All druggists are authorized to return the purchase price if Croxone fails to give the desired results the very first time.

MAY TEST THE WATER BILL

Attorneys of South Omaha Have a Plan of Procedure.

GIVE FRANCHISE TO PACKERS

If the Ordinance Carries it Probably Will Be Taken to the Courts and May Then Test Metropolitan Water Bill.

Attorneys of South Omaha, who are interested in the metropolitan water district bill passed by the recent legislature, which purports to take out of the hands of the city of Omaha all power to govern the water plant, may institute legal proceedings to test the constitutionality of the measure.

Henry Murphy, city attorney of South Omaha, has practically admitted that the move will begin with the passage of an ordinance by the South Omaha city council granting the packing industries authority to furnish themselves with water from the plant they have constructed.

If this ordinance passes the fight will be as to its constitutionality, and if it is held good the metropolitan water district bill will be, to all intents and purposes, null and void.

Commercial Club Men to Look Over Jail

Efforts are to be started by the municipal affairs committee of the Commercial club to secure a new city jail for Omaha.

The committee will go on an inspection trip Friday. The committeemen will go all through the jail, at Ryder's request, in order to see for themselves the deficiencies about which he has been telling them and will look over some of the propositions Ryder has for the construction of a new jail.

While on the inspection trip the committeemen will look over the railroad switch tracks which serve some of the jobbing and wholesale houses on lower Dodge, Harvey and Howard streets. They will take up the matter of more adequate switching facilities for these houses and others which are being contemplated.

COMMERCE SCHOOL TO HAVE "PENNANT DAY"

An assembly meeting was called at Commerce school recently and Principal L. C. Russell delivered a stereopticon lecture on "The Great Northwest." He also announced that a "Pennant day" would be held in a short time. All pupils of the school having friends who have graduated from standard colleges have been requested to ask those graduates to lend the pennant of their college. The idea is to see how many different colleges and universities will be represented.

It was also announced that a general school entertainment will be given in a few weeks. All the different clubs, especially the Girls' Glee club and the Boys' Glee club, will furnish part of the program.

Civil War Veteran

Robbed of Cash and Check While Asleep

John Gray, 70 years of age, a Civil war veteran, was robbed early yesterday at his lodgings in the Howard hotel, Tenth and Howard streets.

Mr. Gray's home is in Ainslee, Neb., and he came to Omaha yesterday on a business trip. He carried with him \$275 in cash, a \$1,000 check, payable to himself, from C. B. Helms and on the First National bank of Ainslee, and some pension papers. All of these belongings were carried away by the thief, who entered through the door of the room.

Upon awakening and discovering his loss he immediately reported the affair to the hotel clerk, who called the police. The payment on the check has been stopped and the police are working upon several clues. One of the bills taken was on the First National bank of Ainslee, Neb., and was for \$50.
